

India's Most Trusted Certified Brand..!

PHARMACEUTICAL & EQUIPMENTS

Most Competitive & Qualitative Range Of Products

Medical Gas Pipeline

Modular OT

WE DEAL ONLY CERTIFIED PRODUCTS ONLY

With more than a decade of experience in the medical equipment industry, **DR. 365 India** has built high customer loyalty for itself among medical practitioners from all over the India. Today, we are a reputed name in the field of medical restoration products and cosmetic dentistry.

ASPIRATION

We provide cost-effective and high quality products to meet our Clients' needs of timely delivery World Wide.

QUALITY POLICY

"We, at **Dr. 365**, endeavor to increase our market share and to continually improve the effectiveness of quality management systems by meeting the standards of ISO 9001:2000. We are committed to satisfy our customers."

We understand that quality leads to customer satisfaction.

Mission

Vision

Values Statement

To be one trusted brand, we must care about our development, people, our profession, our society & global safety. We must dedicate our winning spirit, innovation and teamwork to sharpen our customer-centric focus, and we also must commit to the highest standards of ethics and integrity.

MEDICAL GAS PIPELINE

SAFE, SECURE & USER FRIENDLY

Fine Adjustment Valve With JFM And Humidifier Bottle

Body Material	Brass
Display	Analog
Flow range	0-10 LPM
Brand	MN Life Care
Tube	Unbreakable poly carbon
Range	0-10 L/min
Pressure Gauge Capacity	0-250 kg/cm Square
Knob Adjustment	ABS
Flowmeter Capacity	0-10 ltr/min

Metal BPC Flowmeters With Humidifier Bottle & Adaptor

Accuracy	100%
Model	BPC Flowmeter Metal
Tube	Polycarbon
Knob	ABS Powder
Capacity	0-15 ltr/min
Body Material	Brass
Ball Material	Stainless Steel

MOX 14 Regulator

We are instrumental in offering superior quality Single Stage Twin Gauge MOX Regulators to the esteemed customers. The range of products offered by us is designed and manufactured in compliance with the international quality standards.

Metal BPC Adaptors

At our production unit, we utilize high-quality bpc type adaptors which can be fitted well with Metal BPC flowmeters:

Features

- Rustproof
- Easy to attach
- Crack-free surface finish
- Sturdiness
- Durable quality
- Excellent regulation

Mox Regulator (S/G, D/G)

We are instrumental in offering superior quality Single Stage Twin Gauge MOX Regulators to the esteemed customers. The range of products offered by us is designed and manufactured in compliance with the international quality standards.

Minimum Order Quantity	10 Piece
Pre Set Regulator	up to 60 psi
Spring Material	Stainless Steel, Brass
Pressure Gauge	0-250 kg/cm Square

MNO Regulators (Nitrous)

At our production unit, we utilize high-quality bpc type adaptors which can be fitted well with Metal BPC flowmeters:

Body	Brass
Model	MNO Regulator
Capacity	Moderate
Material	brass
Spring Material	Stainless Steel
Pressure Gauge	0-250 kg/cm ²
Diaphragm	Rubber

Humidifier Bottle

O₂ Concentrator

Screw Type

S-Hook Type

Nut on Type

Humidifier Bottle Color	White, Blue, Green, Black Cap
Usage	Clinic, Laboratory, Hospital
Material	Polycarbonate
Range	0-100 ml / 0-250 ml

Medical Gas Outlets

We are one of the distinguished manufacturers, exporters, and suppliers of an exclusive range of Medical Gas Outlets Double Locking Systems. Precision engineered using an excellent grade of materials and cutting-edge technology these outlets are used for connecting anesthesia machine, vacuum, regulator, oxygen meter and flow meter. Owing to characteristics like durability, excellent oxygen flow, and superior performance, our gas outlet is globally acknowledged by clients. Moreover, our clients can avail these outlets at a reasonable price.

Features

- Oxygen
- N₂O
- Air
- Vacuum

Shradder Type

Double Locking Outlets

Suction Trolley

MS / SS / Aluminium

Features

- Easy to shift
- Epoxy powder coated
- Can bear heavy load
- Longer service life
- Rust proof finishing
- Maintenance free

Ward Vacuum Units

Diaphragm	Neoprene Rubber
Application	Hospital
Brand	MN Life Care
Transparency	Clear
Regulator Body	Aluminum
Inside Parts Material	Brass
Gauge to Measure Negative Pressure	0 to -760 mm Hg
Gauge	Vacuum

Ward Vacuum Jar with Regulators

- 600ml
- 1000ml
- 2000ml

Area Gas Alarm

We (MNLCP) are renowned as one of the stupendous medical gas alarms

- Single gas alarm
- Twin gas alarm
- Three gas alarm
- Four gas alarm

These alarms indicates the low pressure flows of respective gases. It starts beeping or create alarming sound after gas flow goes below it's standard flow rates.

Copper Tail Pipe

Features

- Rustproof nature
- Epoxy powder coated
- Easy to use
- Lightweight
- Crack and leak-proof finishing
- Long lasting quality

Non Return Valve Medical

Features

- ·Rustproof nature
- ·Epoxy powder coated
- ·Easy to use
- ·Lightweight
- ·Crack and leak-proof finishing
- ·Long lasting quality

Plug Safety Key

We manufacture best quality Plug Safety Key for self sealing valve use. It fully made of Brass raw materials. Later get chromium plating and looks like fantastic finishing.

Surface	Satin Finish
Application	Hospital
Brand	MN Life Care
Material	Brass

S bracket Medical

S bracket for medical gas pipeline manufacture by us with best quality raw materials for a long life.

We manufacture best quality S-bracket for Medical gas pipeline gas flow usage. It fully made of Brass raw materials. Later get chromium plating and looks like fantastic finishing

Color	Golden
Application	Hospital
Material	Fully brass

Transparency	Clear Rubber
Regulator Body	Stainless Steel
Inside Parts Material	Brass
Gauge to Measure Negative Pressure	0 to -760 mm Hg
Gauge	Vacuum

Self Sealing Valve

Oxygen, Nitrous, Air, Vacuum

We are one of the leading manufacturers and suppliers of a qualitative range of Self Sealing Valve. These valves are used to attach with oxygen cylinders in medical institutions and hospitals for efficient flow of gases and vacuums.

Features

- Resistant to corrosion
- Easy to attach
- Light weight
- Dimensionally accurate
- Smooth finishing
- Rugged design

Semi Auto Control Panel

We are a renowned manufacturer, importer, wholesaler/distributor, supplier and trader of high quality Semi Automatic Control Panel. It is pneumatically operated by the help of service gas on the basis of pressure differential as well as require electrical supply for functioning. Semi Automatic Control Panel can also be customized as per the exact details provided by the clients to attain their maximum level of satisfaction.

Phase	Three Phase
Power	220 V

Manifold Systems

All kinds of Manifold are properly hydraulic tested by us for delivering better quality.

We do manufacture different types of manifold systems:

1:1 , 2:2, 3:3, 4:4, 5:5, 6:6, 7:7, 8:8

Material	Copper, MS, Brass
Model	Manifold
Application	Hospital
Color	Black, White

BED HEAD PANEL

Bed head panels are constructed from aluminium extrusion profile with round and smooth shape corner and shall be in different size and length per each patient or it made according to as per demand. The unit shall have three physically separated compartments for low and extra voltage, electrical services and for medical gas services. The unit shall provide a safe, efficient mean of delivering services to patients and staff in both general and special care applications. The panel shall consist of a number of modular extrusions capable of being joining together to form a carcass to suit the particular application.

AIR COMPRESSOR & VACUUM PUMP

The first in the world to develop air-cooled, oil less scroll compressors. Now we have taken our patented scroll technology and incorporated it into our premium line of SL series oil free scroll compressors.

The line consists of Base-Mount, Open-Type and Enclosed-Type.

Air Compressor

Air Dryer

Vacuum Pump

Modular OT set Up

Modular Operation Theatre also known as Modular OT, manufactures and designing for hospital operation room, laboratories etc. Most integrated functions are always required in an operating department, such as cleanliness must be preserved and the safety facilities, equipment and device must be maintained any times. Our modular operating theater equipment has been satisfying those conditions consists of a ceiling, slanted panels and wall. In addition, it has a high availability with high workability and enough functions, which is provided for the introduction of a new facility in the future.

Features

- A constant flow of extremely clean bacteria-free air is reticulated below positive pressure into the working field and air pollutants produced during surgery are removed from the site.
- Operation Theater with anti-bacterial paint has minimum durability of 15 years.
- Easy to pure steam cleaned, electro metric (ideal for high humidity areas)
- Seamless.
- Vapor permeability (allows substrate moisture to escape) protects against growth of mould, bacteria and yeasts.
- Thaw resistance / freeze, moisture resistance.

Requirements Of Modular OT

- A Modular Operation theatre needs E-Poxy paint for Flooring and Wall.
- Application of two coats of E-poxy paint with antibacterial and anti fungal chemicals.
- Time day clock Controller for temperature and humidity with indicator.
- General Lighting Systems
- Medical Gas alarm panel.
- Hepa filter 0.3 micron and must be properly calibrated timely.
- Routine check up for proper pressure maintenance in operation theatre.
- Outside OT pressure check routinely.
- Air velocity and Laminar Air flow system must be as per room size required.
- LED X-ray Viewing box.
- Hermitically Locked door.
- Pass Box.
- Pendant system
- Anaesthesia machines
- OT Light and table.
- Two way Surgical Scrub sink.
- Hatch box
